No. 1893-94

Reporting the result of the inspection of the lands granted to Amildar Narasamma for the upkeep of Chattram at Birur.

Narasamma (Amildar) wants to resign 6 survey nos: assessed at Rs. 88 on the ground that the Bar Kankere water does not reach them, and prays that the assessment may be deducted from the Jodi payable to Govt: The figures would be - Exclusive of Irrigation Cess - as follows:-

Berij	Jari	Jodi
198	168	30.

At present it is -

280 - 168 - 112.

If calculated in the ratio which the present Jodi & Jari ~~stand to each other~~ bear to the Berij the figures would be as follows: —

Berij after deducting the assmt of the lands resigned (excl. Irrign Cess) Rs:	Jari after making proportionate deduc. Rs:	Jodi after making proportionate deduc. Rs:
198	118.	80.

Something wrong. Of 88 80 one of Rs 280, 11 annas is Rs 192 & not 198. However, the lands may be allowed to be resigned, & then assessment deducted from the Jodi.

The Chief Secretary to the

Government of Mysore

Sir,

With reference to Government Proceedings No (17) 2131-3 / R.D. 111-92 dated 10th August 1892, issuing orders regarding the levy of irrigation cess on the assessment of lands granted to Amildar Narasanna for the upkeep of Chattram at Bevur, I have the honor to state as follows: —

2. In accordance with Govt: Proceedings No (2) 7577-9 / 291 dated 7th January 1890, lands assessed at Rs 298. below Barkankere Tank, which is fed by Madak Tank, were granted with certain concessions to Amildar Narasanna for the maintenance of the Chattram built

by him at Birur.

3. Previous to the restoration of the said Barkankere Tank two years ago, all the wet lands below it were being irrigated by means of a "madabai" (a distributing sluice) which was known by the name of "Kennman Guddi madabai. This madabai has since been closed and the new madabai called "Agsé madabai" opened instead to supply water to irrigate the lands below it, but does not irrigate the lands referred to in the margin which are some of the Inam lands.

Sur: nos	Extent a-g.	Assessment
152	3-20	12-0
153	5-16	21-0
195	2-20	11-0
201	1-00	4-0
212	6-8	25-0
225	3-38	15-0
6	22-22	88-0

The Inamdar Narasanna reports that these 6 survey numbers assessed at Rs 88/- have lain waste from a long time for want of water, and that it is not possible to render the same irrigable and prays that he may be permitted to resign the same without detriment to 'Jari amount' which

which stands unaltered.

4 - As it does not appear possible to supply further quantity of water to the above lands without prejudice to the garden owners under Devandhere Tank, who have been already complaining about it, I am of opinion that the prayer of Narasanna may be granted, in which case the figures will stand as hereunder.

	Assessment excluding irrigation cesses			Jodi payable to Government			Remainder value of Inam

Deductions to be made	82	13	2	82	13	2	"	"	"

5 - Narasanna who had to pay full jodi and local and irrigation cesses from 1892-93 has withheld payment of the proportionate jodi on the ground that the above lands remained waste during 1892-93 for want of supply of water. A separate remission statement will be submitted on receipt

of Government orders on the above subject.

I may add that I inspected these lands carefully on the 21st January 1894 and found that these six survey numbers could not be irrigated except from the Barkankere which is now proposed to be used for the Bircur water-supply; and also that if the old Madabai Kemmangeddi were reopened that there would be an enormous waste of water, as it would have to pass through a large stretch of Kharal land before reaching these survey numbers.

Sir,

Adverting to Government Proceedings No (19) 4314-6 R.F. 111-92 dated 5th September 1894, allowing Anildar Narasanna to resign 6 numbers out of the lands granted to him as Inam for the maintenance of the chattrum built by him at Birur and calling for a report if the figures given in the above Proceedings are not correct, I have the honour to state that the figures given in the Proceedings of 5th Sept 1894 are correct.

Mr Ramadas

The calculation seems to me to be correct. Please see Mr Chentsal Rao's note.

The valued Jaree Inam is the most essential factor - and that has been decided to be 168-3-0. What ever is a levy alone this must be deducted

If Narasanna resigns a large portion of the land & wants the same Jaree Inam the Jodee has to be materially reduced. The DC does not state that the lands are not profitable - Having regard to the character of the endowment the resignation was properly accepted and the Jodi amount reduced - The balance which Narasanna has to pay is Rupees

Thus Podi which is 24-3-9 + Rajasthi up from 1885-12-3 leaves that [173-6-7] which is more than 168-3-0 by about 5-5- which I deducted as unauthorised Rajasthi

appear to be correct as can be seen from
the following:-

In the figures given in this office
letter above referred to 1/17th of the assessment
has been excluded as sanctioned by Govern-
ment in its Proceedings No. 2131-3 / Rev. 111-92 dated
11th August 1892 while it has been included in
the figures shewn in the Proceedings un-
der reference. This exclusion was allow-
ed on the distinct representation of
Narasanna that the irrigation Cess
was merged in the recorded wet Assess-
ment of the Survey Department,
and any payment of an additional
amount of irrigation Cess was excessive.

2 I have to add that with the object
of making the grant to Narasanna
equal to that of Mallesayya a reduction
in the Jodi payable by the former was
also reduced by Rs 5-12-3-

Owing to ~~change of source~~ irrigation difficulties of Inamdar Narasanna solicited permission to resign lands bearing an assessment of Rs 88-w-, the Jari amount remaining unaltered. In granting the permission, the Deputy Commissioner was required to report further regarding the future jodi to be collected from the Inamdar.

2. The value of Jari Inami is the most essential factor, and that has been decided
